

Before devops

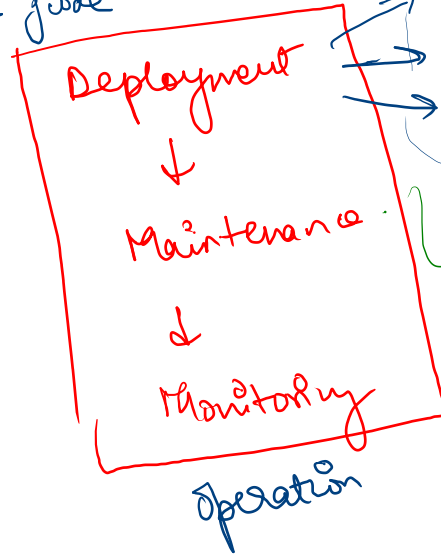

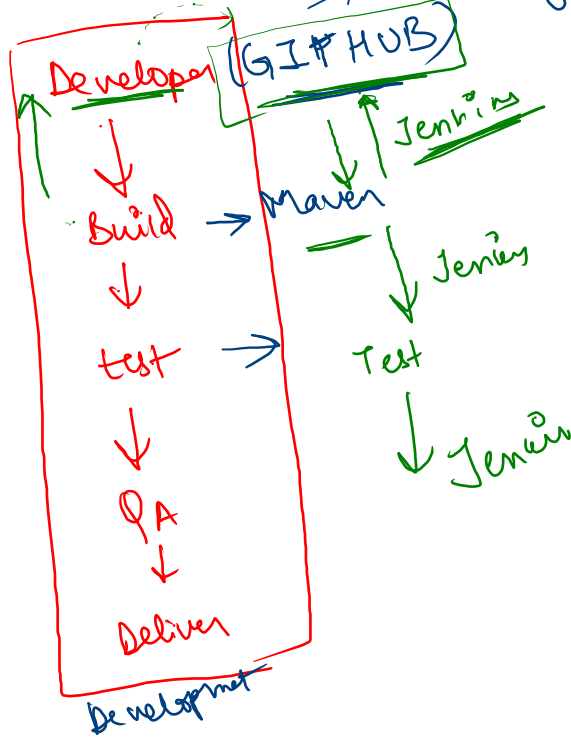

Software development life cycle (SDLC)

Software development life cycle

Devops

Automate
all the
things

Docker
→ RPS
→ Ansible

Cloudwatch
→ Prometheus
Grafana

Why you will use devops?

- eliminate ~~the~~ Manual Intervention } → errors ↓
- reduce the deployment time } → time ↓
- cost ↓

Jenkins →

What is this?

→ Waiter

Automating the steps for you

~~Developer~~

Developer puts the code in → GIT HUB

DevOps
↑ Jenkins

QA ← Jenkins

Selenium

Test

Jenkins

Maven

Jenkins

Pull

GII
